**Agro advisory based on advices received from the experts of Agromet Advisory committee**

<b>Crop</b>	<b>Stage</b>	<b>Agromet Advisory</b>
Wheat, Barley	Booting	Keeping in view of rainfall/snowfall during last few days, farmers are advised to stop irrigation, fertilizer/chemical application for next few days as sufficient moisture is available in all the crops.
Rai, Mustard	Grain filling	Irrigation should be arranged as per requirement in rai and mustard crop at grain filling stage of these crops.
Sugarcane	Sowing.	Sowing of spring season sugarcane crop should be completed up to 15th March. Upper 2/3 part of sugarcane should be used for sugarcane seed. 40-50 thousand pieces of three eyed sugarcane should be used. Line should be prepared at a distance of 75cm in East-West direction for sowing sugarcane crop.
Sunflower	Sowing	Sunflower varieties like Mordan, Surya should be sown in second fortnight of February.
Onion, Garlic	Vegetative Growth	If the upper part of leaves of onion and garlic are turning yellow, solution of propiconazole or tebuconazole @ 1 ml/lit of water should be sprayed.
Potato	Harvesting	Potato should be dig out otherwise chances of infestation of fungal disease may be
Tomatoes, Capsicum, Brinjal and cucurbitaceous crops	-	To control the late blight disease in tomato, it is advised that solution of Mancozeb @ 2.5g/liter or copper oxichloride @ 3g/lit of water should be sprayed in clear weather condition.
Horticulture	-	Cleanliness of orchard should be done in the February month & straw used to save the crop from frost should be removed in the last week of this month.
Animal Husbandry	-	To save the buffalo calf from Toxocara vitulorum (patera) disease, 10-15Cc Neem oil should be given to the calf immediately after 10 days of his birth. Again after 10 days, 10-15 CC Neem oil should be given. Chenopodium album oil can also be given as a fodder to animals to save the calf/animals from patera disease.
Poultry	-	Maintain the temperature of dwelling place of poultry birds. To save the poultry bird from cold, thickness of bedding material should be increases so that they can get sufficient heat to maintain their temperature.
