Forecast Summary:

During last week (14 to 20 March) 6.4 mm rainfall was recorded and the maximum-minimum temperature ranged between 28.5 to 32.9oC and 10.3 to 18.5oC, respectively. The morning and evening relative humidity ranged between 51-91% and 27-39%, respectively. The wind blew from west, west-north-west, west-south-west, west, south-south-east and east at a speed ranging 0.7-2.7 kmph. The weather remained clear on most of the days last week. The upcoming 5 day forecast indicates no rainfall with maximum-minimum temperature ranging between 31-34oC and 11-13oC, respectively. The wind is expected to blow from north-north-west, north-east, east-north-east and north-east direction at a speed of 5-8 kmph. Dry weather is likely to prevail in the region.

Weather Warnings (Valid Till 08:30 IST of the next day)

No weather warning has been given.

Likely impacts of weather warnings on Agriculture and associated Agromet advisories

No impact.

General Advisory:

A regular update regarding weather forecast and agrometeorological advisory is available on the "Meghdoot App" while "Damini App" is also available to get lightning information. Meghdoot and Damini apps can be downloaded from Google Play Store (Android users) and App Center (iOS users). The NDVI composite shows moderate agricultural vigour in the region. The extended range forecast system shows that the predicted trend from 21-27 March would observe deficit rainfall and normal maximum-minimum temperature trend.

SMS Advisory:

As per IMD forecast, dry weather has been predicted so irrigation should be given as and when required to the crops.

Crop Specific Advisory:

Crop (Stage)	Crop Specific Advisory
WHEAT	Irrigation should be applied as and when required. The weeds particularly Phalaris minor and wild oat should be destroyed to avoid yield loss. The wide leaved weeds can be controlled using metsulfuron methyl @4gm/ha mixed in 500-700 litres of water. Occurrence of yellow and brown rust should be controlled using Tebuconazole 250 EC in @500 ml/ha in 500 litre of water and in case of aphid attack 750 ml of Metasystox in 500 litre water per hectare can be used.
CHICK PEA	Regular farming activities like disease/pest control measures should be practiced against major pest like pod borer and disease like blight. Irrigation should be applied at the pod formation stage. Mature pods should be harvested and dried well.
LENTIL	Regular farming activities like disease/pest control measures should be practiced against major pest like pod borer and disease like blight. Irrigation should be applied at the pod formation stage. Mature pods should be harvested and dried well.
BLACK GRAM	If available then sowing of pulses can be done or can also be intercropped with sugarcane.
GREEN GRAM	If available then sowing of pulses can be done or can also be intercropped with sugarcane.
MUSTARD	Harvesting of mature pods should be done and pods should be dried well before threshing. Store the dried and threshed pods.
SUGARCANE	Irrigation application and regular weeding-hoeing operations should be carried out as per requirement in autumn planted sugarcane. Top-dressing of urea should be done after irrigation.

Horticulture Specific Advisory:

Horticulture (Stage)	Horticulture Specific Advisory
FRENCH BEAN	Irrigation should be applied as required and regular hoeing-weeding should be done.
RADISH	Sowing operation for european varieties of radish can be done
CARROT	Sowing operation for european varieties of carrot can be done
MANGO	On the occurrence of Gumba or Mango malformation, cut the affected part and put them covered with soil in the pit.

Live Stock Specific Advisory:

Live Stock	Live Stock Specific Advisory
BUFFALO	In case of infectious diarrhoea in cows/buffaloes, oral E. coli vaccine should be administered and anthelmintic drugs should be given to 2 month old calves.
COW	In case of infectious diarrhoea in cows/buffaloes, oral E. coli vaccine should be administered and anthelmintic drugs should be given to 2 month old calves.
GOAT	For wool production, clean the sheep/goats properly before shaving the wool.
SHEEP	For wool production, clean the sheep/goats properly before shaving the wool.

Likely impacts of weather warnings (General)

No impact.

Impact based advisories (General)

No impact.

Farmers are advised to download Unified Mousam and "Meghdoot" android application on mobile for Weather forecast and weather based Agromet Advisories and "Damini" android application for forecast of Thunderstorm and lightening.
