Forecast Summary:

Last week (14 to 20 October), the region experienced no rainfall with the maximum-minimum temperature ranging 30.0 to 31.0°C and 17.4 to 19.4°C, respectively. The morning and evening relative humidity varied between 73-91% and 45-53%, respectively while the wind blew from north-north-east, north-north-west, north, west-north-west and east-north-east direction at a speed ranging 1.0-1.9 kmph. Last week the weather was clear on all the days with cold nights. The upcoming forecast shows no rainfall from 21-25 October and maximum-minimum temperature are expected to be as 32.0°C and 19.0°C, respectively. The wind is expected to blow from south-east, east-south-east and east-south direction at a speed of 3-4 kmph. No warning has been issued for the upcoming week.

Weather Warnings (Valid Till 08:30 IST of the next day)

No warning.

Likely impacts of weather warnings on Agriculture and associated Agromet advisories

No significant impact and advisory.

General Advisory:

The farmers and other related community can download the “Mausam” app for regular weather information and rainfall alerts. Other apps like "Meghdoot" and "Damini" are also available for regular update of meteorological and lightning data, respectively. All the apps can be easily downloaded from Google Play Store (Android users) and App Centre (iOS users). The extended range forecast shows deficient rainfall and normal maximum and minimum temperature trend during 24.10.2025 to 30.10.2025.

SMS Advisory:

As per IMD, no significant advisory has been issued so sowing should be completed and harvested produce should be dried well before storage.
