Dear Oshin,

Nice to hear from you. Please, there is a child (Archana) diagnosed with congenital heart disease (CHD) . She needs to undergo Catheter Procedures to correct the life-threatening heart defect. You know it very well that the procedure is

extremely expensive and her poor family cannot afford it. I have taken it upon myself to raise money for her procedure. I have donated Rs. 40,000/- but I cannot do it alone, I request your support to save the life of this child (Archana). To prevent this from being a crowdfunding and raising more than the required Rs. 220,000/-, I need 8 donors of Rs. 22,500/- each to raise the remaining amount as I have donated Rs. 40,000/-. If you can help, please let me know so I can tell you where to send your donation.

Kind regards
