

Company Overview

Shaping next generation software development

AVASOFT is a NextGen product company accelerating the digital transformation of corporations and consumers leveraging modern workplace, data science, mobility, and cloud. We are based out of Pennsylvania with offices in Malaysia and India. Our products are developed with scalability as top of mind to deal with continuous enhancements and customizations that have helped us address our customer's business needs more accurately within timelines.

Specialties:

WYSIWYG Delivery, Office Automation, Social computing, Mobile and Cloud computing using Microsoft Products & Platforms. Insurance, Financial services, Manufacturing Services, Nonprofit, Government and Healthcare.

JOB BRIEF

GLIMPSE OF WHAT WE DO :

We have built intranet portal of enterprise class for multiple customers across globe. Our work has helped corporates to build a great workforce across organizational and geographical boundaries. Our intranet portal helps corporates manage wide variety of work practices, collaborative tools, information needs and cultural differences.

Also, our extranet expertise using SharePoint provides business value by building a centralized, self-service area for your associates to find required information, seek support, raise issues, offer feedback and interact real-time with your brand. An associate can be a customer, partner, vendor, remote employees or an organization that interacts with you for business.
