

Jaypee Group, a diversified infrastructure conglomerate is an acknowledged leader in the construction and development of multi-purpose River Valley and Hydropower projects with the unique distinction of operating at more than 14 locations at; Jammu & Kashmir, Uttarakhand, Sikkim, Telangana including Nepal and Bhutan.

We seek applications from individuals who can make meaningful contributions in this competitive environment.

1. General Manager/Dy. General Manager (Contract Management) - Location: Project Site/NCR

Degree/ Diploma in Civil Engineering with more than 20 years experience in large Civil Engineering works with hands on experience of Contract Management in hydropower projects involving extensive underground works, coordinating and administrating the Post Award Contracts, Client's Management and Billing. He should be well versed with the FIDIC conditions of contract and its interpretations and should have indepth knowledge of Indian Contract Act., 1872 & Arbitration and Conciliation Act 1996. **(Retired Govt. Officers with good health from reputed Govt. Depts. with similar experience can also be considered).**

2. Project Engineer/Field Engineer (Civil) - Location : Project Site

Degree / Diploma in Civil Engineering with 4-16 years experience in Hydro Power Projects;

- (a) **Billing** - Experience of Contract/ Billing, Analysis of Quantities & Rates, Preparation of escalation bills, Deviation order Quantity Surveying, Ability to study & analyze Construction Drawings and should have worked in computerized environment.
- (b) **QA/QC** - Must be conversant with Quality Control aspects of material, concrete, shotcrete and testing thereof as per required specifications, establish/ operate Quality Control Lab and prepare Design Mix. Working knowledge of computer is essential.
- (c) **Execution** - Experience of underground excavation, tunneling, concreting, dam construction, penstock, machine hall, etc. Should have good aptitude in Survey, Blasting Operation, and Rock Mechanics.

3. Project Engineer/Field Engineer (Mechanical) - Location : Project Site

Degree/Diploma in Mechanical/Automobile Engineering with 4 to 16 years of working experience in Hydropower Construction Projects in the field of;

- Mechanical maintenance, overhauling of heavy construction equipments/machinery such as excavators, dozers, boomers, LMV's, TATA Vehicles etc. Should be conversant with maintenance and repair of drilling, mucking, shotcreting, rock bolting and concreting equipments used in underground tunneling.
- Concrete production plant like large aggregate processing plants, conveyor systems, Batching Plants, Crusher Plants, Ice and Chilling Plants, Cable Cranes and Tower Cranes.

4. Project Engineer/Field Engineer (Electrical) - Location : Project Site

Degree/Diploma in Electrical Engineering with 4 to 16 years experience in hydro power or allied set-up in the field of erection, testing, commissioning, operation, maintenance, repair of generators, transformers, HT/LT switchgears, control protection and other auxiliary equipment.

[Note - For category at Sl. No. 2, 3 & 4 above, Candidates with experience upto 12 years would be eligible for the post of FE/Sr. F.E/R.E. Candidates with more than 12 years experience (post qualification) will only be eligible for the post of Project Engineer].

5. Design Engineer - Location : NCR

- (a) **Design Engineers** - Degree in engineering with 4-12 years experience in design and planning of civil works of hydropower Projects such as Dams, Barrages, Tunnels, Underground work. Working experience with computers and proficiency in STADDPRO, Primavera, any FEM Analysis Package and CADD (Micro station & Auto CAD) is must.
- (b) **CAD Draughtsman (Civil)** - Diploma/ITI (Civil) with 2 to 10 years experience in Micro Station or auto CAD software.

6. Geologist (Hydro Power) - Location : Project Site

M.Tech / M.Sc (Geology) with 4-16 years working experience in Hydro Electric Projects. Candidate must have knowledge rock engineering, tunnel assessments, slope stability, preparation of geological X-Section and plan, Face and 3D logs, Foundation treatment etc. Must be adept at geological mapping, development of geological models, rock description, ground investigation, in-situ testing and monitoring; rock mass classification.

7. Manager/Assistant Manager - Location : Project Site

- (a) **Stores & Purchase** : Degree/Diploma in Mechanical Engineer/PG Diploma in Material Management with 8 to 12 years experience in Stores, Material Management in large setup. Candidate should have hand- on in Receipt/Issue of Material, Computerized Inventory Control, Procurement, Vendor Development. Working knowledge of SAP is essential.
- (b) **HR & Administration** : MSW/MBA/Diploma IRPM with 8 to 12 years experience in any reputed organization having substantial Manpower. Should have strong Communication and Management skills with exposure to entire cross functional area of HR & Administration. Incumbent should be capable of handling Training & Development, Performance Appraisal, Employee Welfare Activities, Manpower Planning, Recruitment, Industrial Relations, Statutory Compliance, Establishment Matters, Pool Transportation, etc. Experience in dealing with contract labour, local govt. authorities is desirable. Experience of working in SAP is mandatory.

Interested candidates looking for challenging assignments in India and abroad may send their detailed resume preferably through email within ten days of publication of this advertisement.

The application should be sent to:
President (Admn.)
