

Updates regarding online counselling for Masters' (including MCA, M.Tech.) and Ph.D. programmes 2020-21

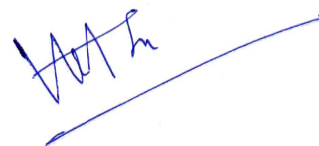

Keeping in view a large number of representations received from the candidates about non-declaration of UG and PG results in many universities so far due to COVID 19 and non-completion of Thesis research work, the following decisions of the Admission Committee have been endorsed by the competent authority:

(i) The last date of choice filling/counselling for Masters' (including MCA, M.Tech.) and Ph.D. programmes has been extended upto November 02, 2020.

(ii) The process of admissions for all Masters' (including MCA, M.Tech.) and Ph.D. programmes will continue as decided. Accordingly the result of counselling/seat allotment will be declared provisionally after checking domicile, category and weightage certificates etc. and the candidates will deposit their university fee online after provisional seat allotment.

(iii) All provisionally admitted students will be allowed to submit their PDC/Final Semester Result latest by **24.12.2020** for confirmation of provisional admission failing which the seat allotted to them will be cancelled.

(iv) The semester for new entrants will start from January 01, 2021 for all Masters' and Ph.D. students. Accordingly the students will get them registered from January 01, 2021.
