

### **One-Day Training Focused on Agricultural Innovation at the University**

A one-day training was organized in the auditorium of the College of Agriculture by Dhanuka Agritech. The main objective of the training was to provide students of Agronomy, Plant Pathology, and Entomology with information about various herbicides, insecticides, and other chemicals produced by Dhanuka Agritech, and the modern technologies used by the company in their production. Detailed information was provided by Dr. Sushil Kumar, Head Product Development, Dhanuka Agritech. Dr. Vineet Singh, Vice President, Dhanuka Agritech, expressed pride in being an alumnus of Pantnagar Agricultural University and motivated the students to uphold the university's dignity. On this occasion, Dean Agriculture and Director Research Dr. Subhash Chandra appreciated Dhanuka Agritech's efforts while addressing the students. Dr. A.S. Nain, Professor of Agrometeorology and Nodal Officer of Training, highlighted the objectives of the training. Also present were Director Communication Dr. J.P. Jaiswal, Dean Student Welfare Dr. A.S. Jeena, Head Agronomy Department Dr. Rohitash Singh, Head Plant Pathology Dr. Yogendra Singh, and Head Entomology Dr. Pramod Mall. The Vice-Chancellor Dr. Manmohan Singh Chauhan appreciated the training organized by Dhanuka Agritech and expressed hope for similar activities in the future. Other representatives of Dhanuka Agritech also participated. Joint Director Dr. P.K. Singh expressed the vote of thanks.
